Product update

Jayex Enlighten E4.

- On-premise
- Supported through on-site and RDP
- Functional and robust
- Win10
- Limited development opportunity

Jayex Connect.

- Mobile check-in
- Cloud based – in-line with NHS Digital plan
- Developing tools and functionality fit for modern primary care
- Windows 10 compliant (Windows 11 ready)
- Signposting and care navigation
- Improved integrations

Move from ENL to **Connect**

Why Connect?

We want Jayex customer to realise the benefits from using our cloud-based platform now and in the future.

- Improved security
- Improved scalability
- Mobile check-in
- Reducing long term costs
- Improved reliability
- Improved integrations with Clinical Systems
- Better remote support (proactive & reactive)
- Software development & remote deployment
- Collaborative development with Jayex (user groups & pilot)

plus much more...

Upgrading to Connect

Upgrade process:

- Contact our sales team
- Account and technology review
- Provide a bespoke cost, based on practices requirements
- Confirm your order
- Operations team will work with practice and local IT to deliver and commission
- Follow up support

Upgrading to Connect

Includes:

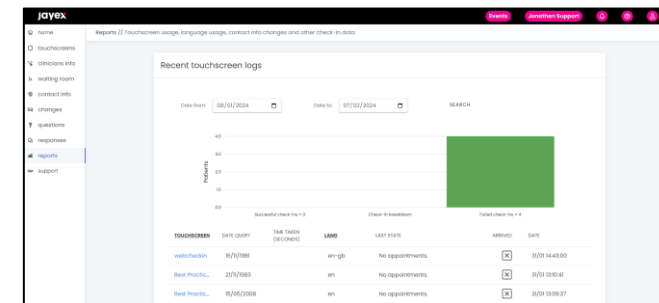

- Brand new high spec Lenovo 8gb (Win10 and Win11 ready)
- New touchscreen or patient calling screen as required
- New warranty
- Access to new online training library
- Enhanced integrations with clinical system
- All new features in development

Mr Bernard Stocker
Mrs Anne Sparkes
