**Jayex Technology Limited**  
**Directors' report**  
**30 June 2022**

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Jayex Technology Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 30 June 2022.

**Directors**

The following persons were directors of Jayex Technology Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Michael Boyd (Executive Chairman)  
Brian Renwick (Non-Executive Director)  
Michael Chan (Non-Executive Director)  
Nicholas Harper (Executive Director)

**Review of operations**

The loss for the consolidated entity after providing for income tax amounted to \$1,064,383 (30 June 2021: \$2,351,878).

**Reorganisation and renewed strategy**

Following the reorganisation of its operations, the company refocused its technology efforts in the half as it divested its Acute (hospital) queue management business. Central to its renewed growth strategy is Primary Care and NHS Community markets via the company's SaaS-based Connect platform. The business continues to grow through innovation and new technologies.

Key themes from the half include:

- Reorganisation of Australian and New Zealand operations
- Net loss of \$1.1m (1H21: -\$2.3m)
- \$448k in cash in bank
- Revenue up 13.3% to \$2.5m as COVID pandemic impact eases on trading performance
- NZLD Cannabis Cultivation license held for Jayex's subsidiary Whakaora Hou Limited
- 2,327 customers using the platform
- New Connect platform innovation launched

**Half Year Performance Summary**

The consolidated entity's revenue was \$2.5m for the half year, up 13.3% as the company's revenues began to show clear indication of moving past the COVID-19 pandemic which has impacted the company's trading performance and trading conditions globally over the last two years and returning nearer to normal levels. The business reported a net loss of \$1.1m (1H21: -\$2.3m).

During the half the company concluded its reorganisation of operations in Australian and New Zealand. These have been significantly streamlined to become more sustainable. Sales, marketing, product and development roles were transferred to the UK with first line support and finance moving to work from home arrangements. This has turned the Company's Australian and New Zealand operations profitable albeit at a reduced level.

**New Opportunities**

Innovation remains at the company's core. The company continues to roll out and develop new products and completed the development of a new clinic based Connect Information kiosk. The Connect kiosk is an integrated part of the Connect platform that allows patients to interact with the clinic including rebooking appointments, complete surveys and search the clinics online resources.

**Whakaora Hou Limited**

During the half, the Company received a letter from Bioarc Ltd withdrawing its offer to purchase Whakaora Hou Limited in New Zealand citing the poor market conditions in New Zealand for cannabis assets.

**Convertible note**

In a subsequent event shortly after the half closure, Covenant Holdings (WA) Pty Ltd (Covenant), a company associated with Jayex Chairman Michael Boyd, agreed to extend the term of its \$3m Convertible Note and Unsecured Loan with Jayex Technology Ltd a further 12 months to 13 October 2023.

### **Likely developments and expected results of operations**

Information on likely developments in the operations of the consolidated entity and the expected results of operations are as follows:

The half has seen a reorganisation of the business and a renewed strategy emerge. Following the divestment of the hospitals business, the company is now focused on Primary care and NHS Community markets via its SaaS-based Connect platform as well as pursuing growth through innovation. The company continues to develop and roll out new products.

As the UK continues to open-up following the successful vaccination roll out in the UK, the company will see improved trading performance. The company has a favourable cash position following the sale of its hospitals business.

### **Significant changes in the state of affairs**

Other than reorganisation of operations mentioned above, there were no other significant changes in the state of affairs of the consolidated entity during the financial half-year.

### **Matters subsequent to the end of the financial half-year**

Other than matter related to extension of repayment period of the convertible notes above, no other matter or circumstance has arisen since 30 June 2022 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

### **Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the directors

---

Michael Boyd  
Chairman

30 August 2022

## AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF THE CORPORATIONS ACT 2001 TO THE DIRECTORS OF JAYEX TECHNOLOGY LIMITED

I declare that, to the best of my knowledge and belief during the half-year ended 30 June 2022 there have been:

- no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the review; and
- no contraventions of any applicable code of professional conduct in relation to the review.

**Jayex Technology Limited**  
**Notes to the consolidated financial statements**  
**30 June 2022**

**Note 1. General information**

The financial statements cover Jayex Technology Limited as a consolidated entity consisting of Jayex Technology Limited and the entities it controlled at the end of, or during, the half-year. The financial statements are presented in Australian dollars, which is Jayex Technology Limited's functional and presentation currency.

Jayex Technology Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business are:

**Registered office and Principal place of business**

Level 4, 100 Albert Road, South Melbourne, Victoria, 3205

A description of the nature of the consolidated entity's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 30 August 2022. The directors have the power to amend and reissue the financial statements.

**Note 2. Significant accounting policies**

These general purpose financial statements for the interim half-year reporting period ended 30 June 2022 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 31 December 2021 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

**Going concern**

The financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The working capital position as at 30 June 2022 of the consolidated entity, as disclosed in the statement of financial position, is an apparent excess of current liabilities over current assets of \$4,924,392. However, the current liabilities as at 30 June 2022 contain a number of liability accounts, including the Convertible notes which the Directors anticipate to be settled through the issue of equity before its maturity on 13 October 2023 and the Contract liabilities, which represent the results of accounting adjustments and do not represent amounts currently payable, or expected to become payable, to third parties. Excluding these liability accounts from the calculation of working capital at 30 June 2022, results in adjusted working capital deficit of \$966,450.

The cash balance at 30 June 2022 was \$448,311.

The consolidated entity incurred a net loss after tax for the half-year ended 30 June 2022 of \$1,064,383 and had net cash outflows from operating activities of \$204,432.

These conditions give rise to a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern.

Notwithstanding these results, the directors believe that the company will be able to continue as a going concern and as a result the financial statements have been prepared on a going concern basis. The accounts have been prepared on the assumption that the company is a going concern for the following reasons:

**Note 2. Significant accounting policies (continued)**

- the consolidated entity's main product, the Connect Platform, remains innovative, viable and competitive, and is capable of further technical development and improvement and therefore remains an important source of profitable and cash-generating activity for the consolidated entity;
- New product innovations such as 'Survey' are ready to be rolled out to enhance the entity's main product offering.
- Operations have been scaled back in Australia to reduce annual costs. The consolidated entity has further ability to scale if required;
- financial support has been consistently offered by related parties of the Directors;
- the Board is of the opinion that the consolidated entity has, or shall have access to, sufficient funds to meet the planned corporate activities and working capital requirements; and
- as the Company is an ASX-listed entity, the consolidated entity has the ability to raise additional funds if required.

This financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessary should the Company not continue as a going concern.

**New Accounting Standards and Interpretations adopted as at 1 January 2022**

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

**Jayex Technology Limited**  
**Notes to the consolidated financial statements**  
**30 June 2022**

**Note 3. Restatement of comparatives**

*Correction of error*

The Group has noted a prior period error for the year ended 31 December 2021 where the disposal of capitalised software was incorrectly adjusted against the foreign currency translation reserve. The Group has restated each of its affected financial statement line items for the prior period ended 31 December 2021, in accordance with AASB 108 "Accounting Policies, Changes in Accounting Estimates and Errors". The impact of the change is presented below.

	<b>As previously reported 2021 \$</b>	<b>Adjustment \$</b>	<b>As Restated 2021 \$</b>
<b>Assets</b>			
Intangible assets	5,465,959	(289,230)	5,176,729
<b>Total assets</b>	<b>9,980,729</b>	<b>(289,230)</b>	<b>9,691,499</b>
<b>Liabilities</b>			
Deferred Tax Liabilities	139,282	(79,538)	59,744
<b>Total Liabilities</b>	<b>8,593,414</b>	<b>(79,538)</b>	<b>8,513,876</b>
<b>Equity</b>			
Reserves	(1,390,173)	(264,646)	(1,654,819)
Accumulated losses	(25,335,006)	54,954	(25,280,052)
<b>Total equity</b>	<b>1,387,315</b>	<b>(209,692)</b>	<b>1,177,623</b>

**Note 4. Operating segments**

*Identification of reportable operating segments*

The consolidated entity is organised into two operating segments: Australia and United Kingdom (UK). These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation), excluding capital-raising expenses and share-based payments. The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements.

The information reported to the CODM is on a monthly basis.

No changes to the policy above have occurred during the reporting period.

*Intersegment transactions*

Intersegment transactions were made at market rates. The Australian operating segment charges a management fee to the United Kingdom operating segment. Intersegment transactions are eliminated on consolidation.

*Major customers*

The consolidated entity does not have a major customer that contributes more than 10% or more to the consolidated entity's revenue.

**Jayex Technology Limited**  
**Notes to the consolidated financial statements**  
**30 June 2022**

**Note 4. Operating segments (continued)**

*Operating segment information*

**Goodwill**

For the purpose of ongoing annual impairment testing goodwill is allocated to the following cash-generating units, which are the units expected to benefit from the synergies of the business combinations in which the goodwill arises:

	<b>Consolidated</b>	
	<b>30 June 2022</b>	<b>31 December 2021</b>
	\$	\$
Jayex Technology Limited (United Kingdom)	<u>3,449,650</u>	<u>3,638,944</u>

*Methodology*

An impairment loss expense in the profit or loss is recognised when the carrying amount of an asset exceeds its recoverable amount. The Company utilised the “Comparable Multiples of Revenue Methodology” to determine the fair value of the cash generating unit (CGU). The method is based on publicly-available information, this methodology ascertains the multiple at which a company might trade on an exchange or the valuation at which it might transact. Revenue or earnings multiples of valuation outputs such as Equity Value (EV) can be utilised in the valuation.

*Impairment testing for CGUs containing goodwill*

Goodwill arose in the business combinations for the acquisition of Jayex Technology Limited in 2015. It represented the excess of the cost of the acquisition over the fair value of the Group’s share of the identifiable net assets acquired and contingent liabilities assumed at the date of acquisition. Goodwill is allocated to the Group’s cash generating units (CGUs) identified according to the Group’s operating segments for impairment testing purposes.

In assessing whether an impairment adjustment is required for the carrying value of an asset, its carrying value is compared with its recoverable amount. The recoverable amount is the higher of the asset’s fair value less costs of disposal and value in use.

*Fair value less cost of disposal and key assumptions*

The Company used the “Comparable Multiples of Revenue Methodology” to determine the fair value of the cash generating unit (CGU) in assessing whether an impairment adjustment is required for the carrying value of an asset, it’s carrying value is compared with its recoverable amount. This methodology ascertains the multiple at which a company might trade on an exchange or the valuation at which it might transact. Revenue or earnings multiples of valuation outputs such as equity value can be utilised in the valuation.

**Jayex Technology Limited**  
**Notes to the consolidated financial statements**  
**30 June 2022**

**Note 9. Intangibles (continued)**

For the 30 June 2022 half-year reporting period, "Comparable Multiples of Revenue Methodology" is utilised to determine the fair value of the cash generating units (CGU) which require the use of assumptions. The calculations used historical revenue for the past 3 years, forecasted revenue over one-year period and comparable trading multiples from the industry or specific firms, then applying them to the business' operating metrics.

Similar to the CGU, the selected companies have little or no earnings. We have adopted the revenue multiples to value the CGU. To derive the appropriate revenue multiples, companies considered directly comparable were shortlisted and the average historical (HY2022) revenue multiples of comparable companies was calculated to be 1.9x. As a sensitivity check we have applied a discount to the average historical (HY2022) revenue multiples in 20%-30% range with no impairment scenarios reported. The revenue projections are based on financial budgets approved by management covering a one-year period. The following factors were considered when reviewing the historical performance and projections of JTL's UK CGU:

- Primarily, the CGU derives revenue from provision of integrated SaaS healthcare services delivery platforms. This consist of supplying software licensing, software development customisation and support services, supply and installation of kiosk, and extended software warranty.
- The revenue has declined over the last few years mainly due to the worldwide pandemic but is forecast to recover in FY2023 and beyond. Management forecasts YoY revenue growth. For the purposes of our revenue multiples-based valuation, we have taken a conservative approach by adopting the FY2021A reported (most recent historical) as the revenue to apply the multiple. The selected revenue for the CGU is £2,512,537.
- Based on the calculations, we have determined the recoverable amount of the CGU in the \$4,194,549 - \$6,374,302 range, with a preferred value of \$5,967,271
- The carrying value of the UK CGU goodwill is \$3,449,650. The valuation range provides a headroom between \$744,549 - \$2,924,302.
- The CGU has reported no earnings in the last 3 years; hence it is most appropriate to use a revenue based multiple to value the CGU. Apart from the considerations described above, management is not currently aware of any other probable changes that would necessitate changes in its key estimates. In determining the value of the CGU, the Company engaged an independent valuation specialist.

*Impairment*

As a result of the assessment the Company has recognised there has been no impairment to the goodwill asset of Jayex Technology CGU for the half-year ended 30 June 2022.

**Note 10. Borrowings**

	<b>Consolidated</b>	
	<b>30 June 2022</b>	<b>31 December 2021</b>

**Jayex Technology Limited**  
**Notes to the consolidated financial statements**  
**30 June 2022**

**Note 10. Borrowings (continued)**

In 2020 financial year, the Company issued 3,000,000 convertible notes each having a face value of \$1.00 to Covenant Holding (WA) Pty Ltd towards the settlement of its \$3m borrowings. Convertible notes are unsecured and bears a coupon rate of 6.5% per annum. The Convertible Notes are convertible into Shares in whole or in part at the sole election of the Noteholder at the Conversion Price at any time on or before the redemption date. Conversion Price will be determined as the greater of \$0.05 and a 20% discount to the volume weighted average price of Shares on the ASX calculated over the 30 days on which trades in Shares were recorded immediately prior to the conversion date. Convertible notes are repayable on 13 October 2022, being the redemption date, for the balance of convertible notes not converted into shares as at that date.

In 2021 financial year, the company repaid \$300,000 of Convertible Notes. As of 30 June 2022, there are 2,700,000 convertible notes outstanding with the carrying value of \$2,517,251 (with face value of \$2,700,000). These are payable on 13 October 2022, if not converted into shares as at that date.

Subsequent to 30 June 2022, the redemption date for convertible notes have been extended by 12 months to 13 October 2023.

The convertibles notes contain an embedded derivative representing the option to convert the convertible notes into equity shares. At the inception date on 13 October 2020, this derivative liability was fair valued at \$1,386,000. As of 30 June 2022, the derivative liability was fair valued at \$nil (31 December 2021: \$69,049). The change in the fair value is recognised in the statement of profit and loss.

The derivative liability is classified as level 3 in fair value measurement hierarchy as detailed in note 3. The derivative liability is valued using Monte Carlo simulation method to determine the conversion price and the Black-Scholes option valuation model is used to assess value of the Rights at valuation date. Key input used in the valuation is as follows:

Assumptions	Conversion Right at 30 June 2022
Revaluation date	30 June 2022
Face value	\$2,700,000
Spot price	\$0.005
Conversion price	\$0.05
Risk free rate	2.73%
Coupon Rate	6.5%
Expected future volatility	75%
Expiry date	13 October 2022
Fair value per Right	\$0.00
Fair value of derivative liability	\$0

The bank loans above comprise of:

- (i) GBP 600k from National Westminster Bank, United Kingdom with an interest rate of 2.05% per annum. This loan is repayable by June 2026 with repayment started from July 2021. As of 30 June 2022, current and non-current portions of loan are at GBP 120k (equivalent to \$212k) and GBP360k (equivalent to \$635k) respectively.
- (ii) GBP 600k from National Westminster Bank, United Kingdom with an interest rate of 2.05% per annum. This loan is repayable by February 2027 with repayment starting from March 2022. As of 30 June 2022, current and non-current portions of loan are at GBP 120k (equivalent to \$212k) and GBP 440k (equivalent to \$776k) respectively.

The loan from related party is interest free, unsecured and is repayable on 1 April 2023.

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

*Share buy-back*

There is no current on-market share buy-back.

**Note 13. Fair value measurement**

*Fair value hierarchy*

The following tables detail the consolidated entity's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

<b>Consolidated - 30 June 2022</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
<i>Assets</i>				
Investment in Vitalhub shares	450,994	-	-	450,994

**Note 13. Fair value measurement (continued)**

<b>Consolidated - 31 December 2021</b>	<b>Level 1</b> \$	<b>Level 2</b> \$	<b>Level 3</b> \$	<b>Total</b> \$
<i>Assets</i>				
Investment in Vitalhub shares	536,001	-	-	536,001
Investment in Brainworks	-	-	1,368,846	1,368,846
Total assets	<u>536,001</u>	<u>-</u>	<u>1,368,846</u>	<u>1,904,847</u>
<i>Liabilities</i>				
Derivative liability	-	-	69,049	69,049
Total liabilities	<u>-</u>	<u>-</u>	<u>69,049</u>	<u>69,049</u>

There were no transfers between levels during the financial half-year.

*Level 3 assets and liabilities*

Movements in level 3 assets and liabilities during the current financial half-year are set out below:

<b>Consolidated</b>	<b>Investment in Brainworks</b> \$	<b>Total</b> \$
Balance at 1 January 2022	1,368,846	1,368,846
Transfers into level 3	-	-
Transfers out level 3	-	-
Gains recognised in profit or loss	-	-
Additions	-	-
Disposals	-	-
Exchange difference	82,741	82,741
Balance at 30 June 2022	<u><u>1,451,587</u></u>	<u><u>1,451,587</u></u>

The level 3 assets and liabilities unobservable inputs and sensitivity are as follows:

<b>Description</b>	<b>Unobservable inputs</b>	<b>Valuation methodology</b>	<b>Sensitivity</b>
Unlisted shares	Acquisition cost	Retention at acquisition cost where the investment was within 12 months of the valuation date. The Company assessed that there has been no material change in the prospects of the investee.	A 10% increase/decrease in shares would increase/ decrease the net asset position of the consolidated entity by approximately \$137k respectively.

**Note 14. Contingent assets**

On 17 May 2021, the Group sold its on-premises Acute hospital queue management business to Canadian based medical technology company Vitalhub Inc. £428k (equivalent to \$788k) of consideration receivable, which was equivalent to the recurring annual revenue attributable to such Customer Contracts multiplied by 3.1 which was invoiced but unsettled at the point-of-Sale completion, was held in escrow and was contingent upon a future event taking place (the receipt of cash from customers). On proof of settlement these Escrow held recurring revenue amounts was released on request. Out of the balance of the contingent asset of £32k as of end of previous financial year, the company received £19k (equivalent to \$36k) during the half-year ended 30 June 2022 which is recognised as other income from discontinued operations (refer to note 6 for information). The company is no longer eligible to received the balance of £13k and there is nil balance of contingent consideration as of 30 June 2022.

**Jayex Technology Limited**  
**Notes to the consolidated financial statements**  
**30 June 2022**

**Note 15. Contingent liabilities**

The Group has no material contingent liabilities as at the date of this report (2021: nil).

Contingently issuable shares related to convertible notes and options are not included in the diluted earnings per share calculation as they are anti-dilutive.

**Jayex Technology Limited**  
**Directors' declaration**  
**30 June 2022**

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2022 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

On behalf of the directors

## Jayex Technology Limited Independent auditor's review report

### REPORT ON THE REVIEW OF THE HALF-YEAR FINANCIAL REPORT

#### Conclusion

We have reviewed the accompanying half-year financial report of Jayex Technology Limited (the Company) and the entities it controlled at the half-year's end or from time to time during the half year (the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Jayex Technology Limited is not in accordance with the *Corporations Act 2001* including:

- a. giving a true and fair view of the Group's financial position as at 30 June 2022 and of its performance for the half year ended on that date; and
- b. complying with Australian Accounting Standard 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Material Uncertainty Related to Going Concern

We draw attention to Note 2 in the financial report, which indicates that the Group incurred a net loss of \$1,064,383 during the half year ended 30 June 2022 and, as of that date, the Group's net cash outflows used in operations was \$204,432. The Group also had net current liabilities of \$4,924,392 at year end. As stated in Note 2, these events or conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

#### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Group in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

## Responsibility of Management for the Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
